## **Do you accept International Orders?**

Yes, we accept International Orders paid for with US funds. International Orders are generally shipped within 3 days. Unfortunately, we cannot tell you how long it takes for international delivery. The postal service in each country has a different speed. Our experience is that most international packages are received within 5-14 days. Please contact us if you have questions about your international order.

Orders that are shipped outside the USA may be subject to import duties, taxes, and/or handling fees. You are responsible for these and any other additional charges.

### **Canadian Orders**

If you are in Canada, the shipment may be subject to import duties, taxes, and/or handling fees, which are assessed by the Canada Customs and Revenue Agency (CCRA) when the item enters Canada. If such fees are applied to your order, the carrier will send a letter notifying you of the charges and the steps necessary to receive the package. You are responsible for these, and any other additional, charges. Unfortunately, we can't control or determine the duties and taxes that will apply to your order. Because policies vary, please contact the CCRA for more information. The recipient of the order is the importer of record and must comply with all applicable laws and regulations of the recipient's country.
